

CyberHub Challenges:

- Only 3 people having to respond to all security incidents reported in South Africa.
- Systems not prioritizing events, not enough people. Need help.
- Ideas for Website improvement.
- Please visit the website and give us ideas, <https://www.cybersecurityhub.gov.za/>

Reporting bugs when you find them?

- Bug bounty programs
- <https://www.zerodayinitiative.com/>

Hack South

Join Hack South if you are new to industry, lots of experienced professionals on there and it's a great community - <https://hacksouth.africa/>

Security Awareness:

- If you are old enough to use a cell phone, you are old enough to learn about cyber security
- <https://internetsafety.trendmicro.com/>
- <https://wcedonline.westerncape.gov.za/news/online-safety-curriculum-learners-and-parents>
- <https://popcorntraining.com/>
- Zaheer Ebrahim: "It comes down to education is key, from a young age we need to establish this. We need to interact with the appropriate age group with the right medium, does an app work better? WhatsApp works well as well...also gamify the scenario, make cyber security fun to learn and adapt"

South Africa Context:

- Contact us at the Western Cape Colab for info around digital inclusion and how it may apply to your projects/idea - <https://www.wcapecolab.org/>
